EDUCATION

B.Sc. in Computer Science and Telecommunication Engineering

May 2022 – Expected Oct 2026

Noakhali Science and Technology University, Noakhali, Bangladesh

- *Undergraduate Thesis (Ongoing):* “MedRxAI: A Deep Learning-Based Framework for Handwritten Prescription Analysis and Medication Recommendation in Bangladesh”
- CGPA: 3.70 / 4.00

RESEARCH EXPERIENCE

Undergraduate Research Assistant

Dec 2025 – Present

Computer / Programming Lab, Noakhali Science and Technology University | Supervisor: Dr. Nahid Akter

- Developed an AI-based system for extracting medicines from handwritten prescriptions and generating medicine recommendations using Bangladeshi datasets.

Research Intern

Aug 2025 – Sep 2025

NSTU Research Society Internship Program 1.0

- Worked on research-based projects involving data analysis and research report preparation.
- Achieved an A+ grade for outstanding performance and analytical contributions.

INDEPENDENT RESEARCH (ONGOING)

MorphAI: Multi-Variant Analysis of Goldenhar Syndrome Using Heterogeneous Medical Images

- Conducting an independent study on Goldenhar Syndrome using heterogeneous medical images to explore multi-variant analysis and AI-based diagnostic approaches.

PUBLICATIONS

- [1] S. Banik, A. Fahim, M. S. Uddin, B. Biswas, **H. H. Joti**, S. E. S. Khan, and M. S. H. Sumon, “Addressing Trust and Efficiency in Pediatric Anemia Diagnosis Using Interpretable Decision Trees,” *IEEE CSNT*, 2026, pp. 1266–1273.

PROJECTS

NSTU EduEval System | *Course Project, Web-Based Platform*

- Built a teacher evaluation platform using structured student feedback.
- Designed a data-driven scoring mechanism for academic decision-making.

DiagnoAI: AI-Powered Disease Detection System | *Course Project, Python, PHP, ML*

- Developed a disease prediction system using the Random Forest machine learning algorithm.
- Built a PHP-based web application with database integration for storing and managing prediction data.

TECHNICAL SKILLS

Programming: Python, Java, C++, SQL

ML / Computer Vision: PyTorch, scikit-learn, Computer Vision, Model Evaluation, Feature Engineering

Web: Flask, PHP

Data & Research: Data Cleaning, Exploratory Data Analysis (EDA), Feature Selection, Research Methodology

Tools: Jupyter Notebook, Google Colab, PyCharm

ACHIEVEMENTS

- **Best Poster Award:** Research & Innovation Summit, University of Chittagong
- **4th Place:** RSBRU International Research Summit 2026, Begum Rokeya University, Rangpur
- **Semi-Finalist (Poster Presentation):** Research Symposium 2.0 – National Abstract Competition, IEOM Society AUST Student Chapter, Ahsanullah University of Science & Technology
- **Top All-Female Position:** AI Hackathon, DUET CSE Carnival 2026, Dhaka University of Engineering & Technology, Gazipur, representing Team LEXICON
- **Participant:** Posterium – National Poster Presentation Competition, Rajshahi University, Aug 2026
- **Participant:** MTB Presents AXIOM Season 1 – National Research Poster Competition, Army IBA
- **Participant:** Datathon, CUET CSE Fest 2025
- **Participant:** Datathon, NWU CSE Fest 2025

LEADERSHIP

- **Public Relations Secretary, CSTE Club, NSTU** (Dec 2025 – Aug 2026)
- **Executive Member, Research Wing, CSTE Club, NSTU** (2024 – 2025)

VOLUNTEERING

- **Volunteer Representative, CSTE Club, NSTU** – Phoenix Summit Dhaka 2026 (Jun 2026)
- **Event Specialist, CSTE Club, NSTU** – National High School Programming Contest (NHSPC) 2026 Regional Round (May 2026)
